| Conjugation                | Unconjugated                                                                                                                                                                                                                                                  |
| Product Description        | Receptor protein tyrosine kinases transduce extracellular signals across the cell membrane. A subgroup of these kinases lack detectable catalytic tyrosine kinase activity but retain roles in signal transduction. The protein encoded by this gene is a ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Molecular Weight           | 118kDa                                                                                                                                                                                                                                                        |
