| Product Description        | ATP-13C2 (Adenosine 5-triphosphate-13C2) dilithium is 13C-labeled ATP (HY-B2176). ATP (Adenosine 5-triphosphate) is a central component of energy storage and metabolism in vivo. ATP provides the metabolic energy to drive metabolic pumps and serves as... |
| Molecular Weight           | 521.03                                                                                                                                                                                                                                                        |
| Purity                     | 96                                                                                                                                                                                                                                                            |
| Formula                    | C8 13C2H14Li2N5O13P3                                                                                                                                                                                                                                          |
| Target                     | Endogenous Metabolite, Isotope-Labeled Compounds                                                                                                                                                                                                              |
| Application Notes          | MCE Product type: Isotope-Labeled Compounds                                                                                                                                                                                                                   |
