### Recombinant Human FGFR4, N-terminal Protein RAY-230-01261-50

|                            |                                                                                                    |
|----------------------------|----------------------------------------------------------------------------------------------------|
| Article Name               | Recombinant Human FGFR4, N-terminal Protein                                                        |
| Biozol Catalog Number      | RAY-230-01261-50                                                                                   |
| Supplier Catalog Number    | 230-01261-50                                                                                       |
| Alternative Catalog Number | RAY-230-01261-50                                                                                   |
| Manufacturer               | RayBiotech                                                                                         |
| Category                   | Proteine/Peptide                                                                                   |
| Species Reactivity         | Human                                                                                              |
| Product Description        | Recombinant Human FGFR4, N-terminal Protein with N-terminal His-tag, derived from E. coli....      |
| Concentration              | Lot specific. See vial labels.                                                                     |
| Molecular Weight           | 42 kDa                                                                                             |
| Tag                        | N-terminal His-tag                                                                                 |
| NCBI                       | <a href="#">2264</a>                                                                               |
| Expression System          | Escherichia coli (E.coli)                                                                          |
| Purity                     | SDS-PAGE under reducing conditions and visualized by Coomassie blue staining. See gel image below. |
| Form                       | Liquid                                                                                             |
| Sequence                   | Leu22-Asp369                                                                                       |

|         |                                                                           |
|---------|---------------------------------------------------------------------------|
| Formula | Filtered solution in 50 mM Tris-HCl (pH 8.0), 0.5 M NaCl, 0.4 M arginine. |
