| Category                   | Antikörper                                                                                                                                                                                                                                                                   |
| Species Reactivity         | Human                                                                                                                                                                                                                                                                        |
| Immunogen                  | Immunogen was synthetic peptide derived from Human Inhibin B. This antibody was produced from a rabbit immunized with the immunogen. The IgG fraction will be purified from rabbit serum by ammonium sulphate precipitation followed by Protein A/G affinity chromatography. |
| Product Description        | Rabbit Anti-Human Inhibin B Antibody...                                                                                                                                                                                                                                      |
