| Product Description        | RayBio Human Activin R1B ELISA Kit for Cell Culture Supernatants, Plasma, and Serum samples. Lead time: Typically ships within 1-2 business days. No Friday shipments.... |
| Range                      | 1.45 ng/ml - 400 ng/ml                                                                                                                                                    |
| Sensitivity                | 1.45 ng/ml                                                                                                                                                                |
| NCBI                       | <a href="#">91</a>                                                                                                                                                        |
| Form                       | 96-well Microplate                                                                                                                                                        |
| Samples                    | Cell Culture Supernatants, Plasma, Serum                                                                                                                                  |
| Target                     | Activin Receptor Type IB (ALK-4 / ACVR1B)                                                                                                                                 |
| Application Dilute         | 2 fold                                                                                                                                                                    |
| Application Notes          | Colorimetric                                                                                                                                                              |
