| Product Description        | RayBio Human PDGF R beta ELISA Kit for cell culture supernatants, plasma, and serum samples. Lead time: Typically ships within 1-2 business days. No Friday shipments.... |
| Range                      | 25 pl/ml - 18000 pg/ml                                                                                                                                                    |
| Sensitivity                | 25 pg/ml                                                                                                                                                                  |
| NCBI                       | <a href="#">5159</a>                                                                                                                                                      |
| Form                       | 96-well Microplate                                                                                                                                                        |
| Samples                    | Cell Culture Supernatants, Plasma, Serum                                                                                                                                  |
| Target                     | PDGF R beta (PDGFRB)                                                                                                                                                      |
| Application Dilute         | 20 - 100 fold                                                                                                                                                             |
| Application Notes          | Colorimetric                                                                                                                                                              |
