| Category                   | Kits/Assays                                                                                                                                                                                                                                                    |
| Species Reactivity         | Bovine                                                                                                                                                                                                                                                         |
| Product Description        | This GENLISA Bovine Alpha-2-Macroglobulin (A2M) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Validated against... |
| Range                      | 0.156 - 10 ug/ml                                                                                                                                                                                                                                               |
| Sensitivity                | 0.094 ug/ml                                                                                                                                                                                                                                                    |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                          |
