| Manufacturer               | TargetMol                                                                                                                                                        |
| Category                   | Biochemikalien                                                                                                                                                   |
| Product Description        | Catalyzes the reversible phosphorylation of pyruvate and phosphate. In E.histolytica and C.symbiosus, PPDK functions in the direction of ATP synthesis....       |
| Molecular Weight           | 54.4 kDa (predicted)                                                                                                                                             |
