| Product Description        | In muscle, parvalbumin is thought to be involved in relaxation after contraction. It binds two calcium ions. Parvalbumin beta Protein, Gadus morhua, Recombinant (His & SUMO) is expressed in E. coli expression system with N-6xHis-SUMO tag. The predict... |
| Molecular Weight           | 27.4 kDa (predicted)                                                                                                                                                                                                                                          |
