| Product Description        | Protease whose physiological substrate is not yet known. Kallikrein 15 Protein, <i>S. cerevisiae</i> , Recombinant (hFc) is expressed in HEK293 mammalian cells with C-hFc tag. The predicted molecular weight is 54.8 kDa and the accession number is Q7JIG6.... |
| Molecular Weight           | 54.8 kDa (predicted)                                                                                                                                                                                                                                              |
