| Product Description        | After binding acetylcholine, the AChR responds by an extensive change in conformation that affects all subunits and leads to opening of an ion-conducting channel across the plasma membrane. CHRNA1 Protein, Tetronarce californica, Recombinant (E. coli... |
| Molecular Weight           | 28.8 kDa (predicted)                                                                                                                                                                                                                                          |
