| Category                   | Biochemikalien                                                                                          |
| Product Description        | HA14-1, a Bcl-2/Bcl-XL antagonist, is a non-peptidic ligand of a Bcl-2 surface pocket (IC50: ~9 µM).... |
| Molecular Weight           | 409.23                                                                                                  |
| Purity                     | 98.00%                                                                                                  |
| CAS Number                 | [65673-63-4]                                                                                            |
| Formula                    | C17H17BrN2O5                                                                                            |
| Target                     | Bcl-2 Family                                                                                            |
