| Category                   | Biochemikalien                                                                                                                                                                                              |
| Product Description        | TIM-3/KIM-3/HAVCR2 Protein, Mouse, Recombinant (aa 20-191, His) is expressed in HEK293 mammalian cells with C-6xHis tag. The predicted molecular weight is 30-50 KDa and the accession number is Q8VIM0.... |
| Molecular Weight           | 30-50 KDa (reducing condition)                                                                                                                                                                              |
