| Product Description        | PSGL-1 (CD162), is a mucintype glycoprotein that plays a key role in leukocyte adhesion. Human PSGL-1 cDNA encodes 412 amino acids (aa). It expressed on neutrophils, monocytes and most lymphocytes. The mature PSGL-1 (aa 42-412) is expressed as a disu... |
| Molecular Weight           | 100-130 KDa (reducing condition)                                                                                                                                                                                                                              |
