| Category                   | Biochemikalien                                                                                                                                                              |
| Product Description        | RBP4 Protein, Human, Recombinant (His) is expressed in HEK293 mammalian cells with His tag. The predicted molecular weight is 23 kDa and the accession number is P02753.... |
| Molecular Weight           | 23 kDa (predicted)                                                                                                                                                          |
| Purity                     | 94.50%                                                                                                                                                                      |
