| Manufacturer               | TargetMol                                                                                                                                                                              |
| Category                   | Biochemikalien                                                                                                                                                                         |
| Product Description        | ICAM-1/CD54 Protein, Human, Recombinant (aa 1-480,DDDDK) is expressed in HEK293 mammalian cells. The predicted molecular weight is 50.2 kDa and the accession number is A0A384MEK5.... |
| Molecular Weight           | 50.2 kDa (predicted), 71.3 kDa (reducing condition, due to glycosylation)                                                                                                              |
| Purity                     | 93.30%                                                                                                                                                                                 |
