| Manufacturer               | TargetMol                                                                                                                                                                              |
| Category                   | Biochemikalien                                                                                                                                                                         |
| Product Description        | Mucin-1/MUC1 Protein, Human, Recombinant (hFc) is expressed in HEK293 mammalian cells with hFc tag. The predicted molecular weight is 42 kDa and the accession number is P15941-11.... |
| Molecular Weight           | 42 kDa (predicted), 55-60 kDa (reducing condition, due to glycosylation)                                                                                                               |
| Purity                     | 88.40%                                                                                                                                                                                 |
