| Category                   | Biochemikalien                                                                                                                                                                  |
| Product Description        | IL-1R1 Protein, Mouse, Recombinant (His) is expressed in HEK293 mammalian cells with His tag. The predicted molecular weight is 38.7 kDa and the accession number is P13504.... |
| Molecular Weight           | 38.7 kDa (predicted), 55-60 kDa (reducing condition, due to glycosylation)                                                                                                      |
