| Manufacturer               | TargetMol                                                                                                                                                                           |
| Category                   | Biochemikalien                                                                                                                                                                      |
| Product Description        | FGFR3 Protein, Cynomolgus, Recombinant (hFc) is expressed in HEK293 mammalian cells with hFc tag. The predicted molecular weight is 65.1 kDa and the accession number is F7FZR9.... |
| Molecular Weight           | 65.1 kDa (predicted), 99.9 kDa (reducing conditions)                                                                                                                                |
