| Manufacturer               | TargetMol                                                                                                                                                                                                   |
| Category                   | Biochemikalien                                                                                                                                                                                              |
| Product Description        | CD1B & B2M Heterodimer Protein, Human, Recombinant (His) is expressed in HEK293 mammalian cells with His tag. The predicted molecular weight is 44.7 kDa and the accession number is NP_001755.1&P61769.... |
| Molecular Weight           | 44.7 kDa (predicted), 39.6 and 13.1 kDa (reducing conditions)                                                                                                                                               |
