| Manufacturer               | TargetMol                                                                                                                                                                                |
| Category                   | Biochemikalien                                                                                                                                                                           |
| Product Description        | VEGFR2/KDR Protein, Cynomolgus, Recombinant (His) is expressed in HEK293 mammalian cells with His tag. The predicted molecular weight is 84.7 kDa and the accession number is G7P5T2.... |
| Molecular Weight           | 84.7 kDa (predicted)                                                                                                                                                                     |
