| Manufacturer               | TargetMol                                                                                                                                                                            |
| Category                   | Biochemikalien                                                                                                                                                                       |
| Product Description        | IL-13RA2 Protein, Mouse, Recombinant (mFc) is expressed in HEK293 mammalian cells with mFc tag. The predicted molecular weight is 62.84 kDa and the accession number is O88786-1.... |
| Molecular Weight           | 62.84 kDa (predicted)                                                                                                                                                                |
