| Manufacturer               | TargetMol                                                                                                                                                                                 |
| Category                   | Biochemikalien                                                                                                                                                                            |
| Product Description        | FGFR1 Protein, Human, Recombinant (beta (IIIb), hFc) is expressed in HEK293 mammalian cells with hFc tag. The predicted molecular weight is 56 kDa and the accession number is H9FRD4.... |
| Molecular Weight           | 56 kDa (predicted), 76-106 kDa (reducing condition, due to glycosylation)                                                                                                                 |
