| Manufacturer               | TargetMol                                                                                                                                                        |
| Category                   | Biochemikalien                                                                                                                                                   |
| Product Description        | SIGLEC12 Protein, Mouse, Recombinant (hFc) is expressed in HEK293 Cells. The accession number is Q91Y57....                                                      |
| Molecular Weight           | 64.08 kDa (predicted), 91.5 kDa (reducing contition, due to glycosylation)                                                                                       |
