| Category                   | Biochemikalien                                                                                                                                                                                                                                                |
| Product Description        | M1002 is a hypoxia-inducible factor-2 (HIF-2) agonist that enhances the affinity of HIF-2alpha and ARNT for transcriptional activation. It alters the Tyr2 conformation of the HIF-2alpha PAS-B structural domain and acts synergistically with inhibitors... |
