| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | FLISA, IP, WB                                                                                                                                                                                                                                                 |
| Immunogen                  | Partial recombinant corresponding to aa31-102 from human PF4 (NP_002610) with GST tag. MW of the GST tag alone is 26kD.                                                                                                                                       |
| Product Description        | Released during platelet aggregation. Neutralizes the anticoagulant effect of heparin because it binds more strongly to heparin than to the chondroitin-4-sulfate chains of the carrier molecule. Chemotactic for neutrophils and monocytes. Inhibits endo... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [3F6]                                                                                                                                                                                                                                                         |
