| Category                   | Molekularbiologie                                                                                                                                                                                                                                                |
| Product Description        | Recombinant protein corresponding to aa9-231 from porcine Trypsin, fused to 6X His-Tag at N-terminal, expressed in Yeast. Swiss/UniProt Accession: P00761 Molecular Weight: ~25.5kD Amino Acid Sequence:<br>IVGGYTCAANSIPYQVSLNSGSHFCGGSLINSQWVVSAAHCYKSRIQVR... |
| Molecular Weight           | 25.5                                                                                                                                                                                                                                                             |
| UniProt                    | <a href="#">P00761</a>                                                                                                                                                                                                                                           |
| Purity                     | 90% (SDS-PAGE). 95% (SEC-HPLC).                                                                                                                                                                                                                                  |
| Form                       | Supplied as a lyophilized powder from PBS, pH 7.4, 5% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                                                               |
