| Product Description        | Source: Recombinant protein corresponding to aa 26-214 from human cytomegalovirus UL130, fused to His-SUMO-Tag at N-terminal, expressed in E. coli. Molecular Weight: ~40.7kD Amino Acid Sequence:<br>MLRLLLRHHFHCLLLCAVWATPCLASPWSTLTANQNPSPWSKLTYSKPHDA<br>ATF... |
| Molecular Weight           | 40.7                                                                                                                                                                                                                                                                |
| UniProt                    | <a href="#">P16772</a>                                                                                                                                                                                                                                              |
| Purity                     | 90% (SDS-PAGE)                                                                                                                                                                                                                                                      |
| Form                       | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                                  |
