| Alternative Catalog Number | USB-I1904-65B-2                                                                                                                                                                                                                                                    |
| Manufacturer               | US Biological                                                                                                                                                                                                                                                      |
| Host                       | Rabbit                                                                                                                                                                                                                                                             |
| Category                   | Antikörper                                                                                                                                                                                                                                                         |
| Application                | ELISA, IHC, WB                                                                                                                                                                                                                                                     |
| Immunogen                  | Mouse IgG whole molecule                                                                                                                                                                                                                                           |
| Product Description        | Label: Biotinamidocaproate N-Hydroxysuccinimide Ester (BAC)<br>Biotin/Protein Ratio: 10-20 BAC molecules per Rabbit IgG molecule<br>Application(s): immunoblotting, ELISA, immunohistochemistry, immunomicroscopy as well as other antibody based assays using ... |
| Purity                     | Prepared from monospecific antiserum by immunoaffinity chromatography using Mouse IgG coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities.                                                                          |
| Form                       | Biotin conjugated. Lyophilized in 0.01 M Sodium Phosphate, 0.14 M Sodium Chloride, pH 7.4, 10mg/ml BSA (IgG and Protease free), 0.01% (w/v) Thimerosal                                                                                                             |
