| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Source: Recombinant corresponding to aa150-end of human Nedd 4 with N-terminal FLAG tag, expressed in a Baculovirus infected Sf9 cell expression system (NM_006154). Specific Activity: 0.0027pmol/min/ug Assay conditions: 50ul reaction mix (4mM ATP, 5m... |
| Molecular Weight           | 86                                                                                                                                                                                                                                                            |
