| Product Description        | N-Ethyl-2-methyl-2-propen-1-amine is an intermediate in synthesizing Ethalfuralin (E917718), a herbicide. Molecular Formula: C <sub>6</sub> H <sub>13</sub> N Solubility: Dichloromethane, Ethyl Acetate Molecular Weight: 99.17 Storage and Stability: Store at -20C. For maximum ... |
| Molecular Weight           | 99.17                                                                                                                                                                                                                                                                                  |
| Form                       | Supplied as a Light Yellow Solid                                                                                                                                                                                                                                                       |
