| Category                   | Biochemikalien                                                                                                                                                                                                                                                |
| Product Description        | Salicylic Acid Acyl-beta-D-glucuronide Dibenzyl Ether is an protected metabolite of Salicylic Acid (S088125), an impurity of Acetylsalicylic Acid (A187780). Acetylsalicylic acid Impurity B. Molecular Formula: C27H26O9 Solubility: Acetonitrile,Chlorof... |
| Molecular Weight           | 494.49                                                                                                                                                                                                                                                        |
| Form                       | Supplied as a Beige Paste                                                                                                                                                                                                                                     |
