| Product Description        | Tricaprin is used to construct solid lipid nanoparticles (SLNs) as delivery system for bromocriptine (B682600, Mesylate salt). It is also used in cationic SLNs to enhance p53 tumor suppressor gene transfer to lung cancer cells. Molecular Formula: C33... |
| Molecular Weight           | 554.84                                                                                                                                                                                                                                                        |
