| Product Description        | Urolithin D is used in biological studies to evaluate DNA gyrase inhibitory activity of ellagic acid derivatives. Molecular Formula: C <sub>13</sub> H <sub>8</sub> O <sub>6</sub> Solubility: DMSO, (Slightly) Methanol (Slightly) Molecular Weight: 260.2 Storage and Stability: Store at -20C... |
| Molecular Weight           | 260.2                                                                                                                                                                                                                                                                                               |
| Form                       | Supplied as a Off-White Solid                                                                                                                                                                                                                                                                       |
