| Product Description        | (2S,3R)-(Methylenecyclopropyl)glycine is a homolog of Hypoglycine A (H9782) and an inhibitor of acyl-CoA dehydrogenase in pig kidney. Molecular Formula: C <sub>6</sub> H <sub>9</sub> NO <sub>2</sub> Molecular Weight: 127.14 Storage and Stability: Store at -20C. For maximum recovery of pr... |
| Molecular Weight           | 127.14                                                                                                                                                                                                                                                                                              |
