| Product Description        | (Z)-Flunarizine is Z-isomer of Flunarizine(F455200, Dihydrochloride), which is a calcium channel blocker. Flunarizine is a fluorinated derivative of Cinnarizine and a vasodilator (cerebral and peripheral). EP Impurity C Molecular Formula: C <sub>26</sub> H <sub>26</sub> F <sub>2</sub> N <sub>2</sub> ... |
| Molecular Weight           | 404.49                                                                                                                                                                                                                                                                                                           |
| Form                       | Supplied as a Clear Colorless to Pale Yellow Thick Oil                                                                                                                                                                                                                                                           |
