| Product Description        | alpha-Copaene-d3 is a deuterium labelled alpha-Copaene. alpha-Copaene is a tricyclic sesquiterpenes and can be extracted from the oil of <i>S. aethiopsis</i> . It also exhibit anti-plasmodial activity against <i>P. falciparum</i> in culture. Molecular Formula: C <sub>15</sub> H <sub>2</sub> ... |
| Molecular Weight           | 207.37                                                                                                                                                                                                                                                                                                  |
