| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA, IHC                                                                                                                                                                                                                                                    |
| Immunogen                  | Recombinant human Bile salt sulfotransferase protein (aa1-145).                                                                                                                                                                                               |
| Product Description        | Sulfotransferase that utilizes 3-phospho-5-adenylyl sulfate (PAPS) as sulfonate donor to catalyze the sulfonation of steroids and bile acids in the liver and adrenal glands. Applications: Suitable for use in ELISA and Immunohistochemistry. Other appl... |
| UniProt                    | <a href="#">Q06520</a>                                                                                                                                                                                                                                        |
| Purity                     | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |
| Form                       | Supplied as a liquid in PBS, pH 7.3, 0.02% sodium azide, 50% glycerol.                                                                                                                                                                                        |
