| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                | Synthetic peptide, corresponding to amino acids 280-320 of Human ZAP70.                                                                                                                                                                                       |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | The activation of T lymphocytes by antigens is mediated by the T cell receptor (TCR), which is a multisubunit complex assembled from at least six different genes . The TCR subunits include the Ti a and b chains, the CD3 g , d and e chains and a z -co... |
| Molekulargewicht         | ~ 70 kDa                                                                                                                                                                                                                                                      |
| UniProt                  | <a href="#">P43403</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                                                                             |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE). |
| Formulierung           | Rabbit IgG, 1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2                                                                                      |
| Application Verdünnung | WB:1:500~1:1000                                                                                                                                             |
| Anwendungsbeschreibung | ZAP-70 (Tyr292) polyclonal antibody detects endogenous levels of ZAP-70 protein.                                                                            |
