| Category                   | Biochemikalien                                                                                                                                                                                                                                                                                          |
| Product Description        | 3,10-Dibromo-8-chloro-6,11-dihydro-5H-benzo[5,6]cyclohepta[1,2-b]pyridine is used in the synthetic preparation of Ionafarnib, a potential anticancer agent. Molecular Formula: C <sub>14</sub> H <sub>10</sub> Br <sub>2</sub> ClN<br>Molecular Weight: 387.5 Storage and Stability: Store at -20C. ... |
| Molecular Weight           | 387.5                                                                                                                                                                                                                                                                                                   |
| CAS Number                 | [272107-22-9]                                                                                                                                                                                                                                                                                           |
