| Product Description        | 6-Amino-7H-purine-2-thiol is a reagent in the preparation of alkylated heterocyclic bases. Molecular Formula: C <sub>5</sub> H <sub>5</sub> N <sub>5</sub> S Molecular Weight: 167.19 Storage and Stability: Store at -20C. For maximum recovery of product, centrifuge the original vial prior t... |
| Molecular Weight           | 167.19                                                                                                                                                                                                                                                                                               |
