| Product Description        | 6,6-Methylene Bis[5-chlorobenzoxazol-2(3H)-one] is an impurity of Chlorzoxazone (C428700). Chlorzoxazone is a muscle relaxant (skeletal). Molecular Formula: C <sub>15</sub> H <sub>8</sub> Cl <sub>2</sub> N <sub>2</sub> O <sub>4</sub> Molecular Weight: 351.14 Storage and Stability: Store at -20C. For maximum reco... |
| Molecular Weight           | 351.14                                                                                                                                                                                                                                                                                                                       |
