| Category                   | Biochemikalien                                                                                                                                                                                                                                                                                      |
| Product Description        | Anabolic steroid. Molecular Formula: C <sub>21</sub> H <sub>32</sub> O <sub>3</sub> Solubility: Dichloromethane, Ethyl Acetate, Methanol Molecular Weight: 332.48 Storage and Stability: Store at -20C. For maximum recovery of product, centrifuge the original vial prior to removing the cap.... |
| Molecular Weight           | 332.48                                                                                                                                                                                                                                                                                              |
| Form                       | Supplied as a White Solid                                                                                                                                                                                                                                                                           |
