| Product Description        | DHFBI mimics a green fluorescent protein in the use of biological assays and drug development. Molecular Formula: C <sub>12</sub> H <sub>10</sub> F <sub>2</sub> N <sub>2</sub> O <sub>2</sub><br>Molecular Weight: 252.22 Storage and Stability: Store at -20C. For maximum recovery of product, centrifuge the original via... |
| Molecular Weight           | 252.22                                                                                                                                                                                                                                                                                                                           |
