| Product Description        | GSK 1016790A is a transient receptor potential vanilloid 4 (TRPV4) agonist. Molecular Formula: C <sub>28</sub> H <sub>32</sub> Cl <sub>2</sub> N <sub>4</sub> O <sub>6</sub> S <sub>2</sub> Molecular Weight: 655.61 Storage and Stability: Store at -20C. For maximum recovery of product, centrifuge the original vial prior to remov... |
| Molecular Weight           | 655.61                                                                                                                                                                                                                                                                                                                                     |
