| Product Description        | Irisflorethin is an anti-tumor flavonoid compound extracted from Belamcanda Chinesis (L.) with anti-tumor activity. Molecular Formula: C <sub>20</sub> H <sub>18</sub> O <sub>8</sub> Molecular Weight: 386.35 Storage and Stability: Store at -20C. For maximum recovery of product, centrifuge ... |
| Molecular Weight           | 386.35                                                                                                                                                                                                                                                                                               |
