| Product Description        | Isoanastrozole (Anastrozole EP Impurity G) is used in the preparation of Anastrozole, an aromatase inhibitor. Used as an antineoplastic. Molecular Formula: C <sub>17</sub> H <sub>19</sub> N <sub>5</sub> Molecular Weight: 293.37 Storage and Stability: Store at -20C. For maximum recovery o... |
| Molecular Weight           | 293.37                                                                                                                                                                                                                                                                                              |
