| Product Description        | Monooctyl Phthalate beta-D-Glucuronide is a glucuronide conjugate of Monooctyl Phthalate (M566650) which is a Phthalate metabolite. Molecular Formula: C <sub>22</sub> H <sub>30</sub> O <sub>10</sub> Solubility: DMSO (Slightly), Methanol (Slightly) Molecular Weight: 454.47 Storage and Sta... |
| Molecular Weight           | 454.47                                                                                                                                                                                                                                                                                              |
| Form                       | Supplied as a Off-White Solid                                                                                                                                                                                                                                                                       |
