| Manufacturer               | US Biological                                                                                                                                                                                                                                                 |
| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant protein corresponding to aa1069-1196 from human ubiquitin C-terminal hydrolase 31 protein.                                                                                                                                                        |
| Product Description        | May recognize and hydrolyze the peptide bond at the C-terminal Gly of ubiquitin. Involved in the processing of poly-ubiquitin precursors as well as that of ubiquitinated proteins (By similarity). Applications: Suitable for use in ELISA. Other applica... |
| UniProt                    | <a href="#">Q70CQ4</a>                                                                                                                                                                                                                                        |
| Purity                     | Purified by Protein G affinity chromatography.                                                                                                                                                                                                                |
| Form                       | Supplied as a liquid in 0.01M PBS, pH 7.4, 0.03% Proclin 300, 50% glycerol. Labeled with Biotin.                                                                                                                                                              |
