| Product Description        | This gene encodes a subunit of the asialoglycoprotein receptor. This receptor is a transmembrane protein that plays a critical role in serum glycoprotein homeostasis by mediating the endocytosis and lysosomal degradation of glycoproteins with exposed... |
| Molecular Weight           | 52.2 kDa                                                                                                                                                                                                                                                      |
| Tag                        | N-Fc                                                                                                                                                                                                                                                          |
